## Introduction

Driving Test Success Online [www.drivingtestsuccess.com](http://www.drivingtestsuccess.com) (“DTS Online”) is an e-learning service that allows your pupils to revise online for their Theory Test, Hazard Perception Test and Practical Driving Test. Pupils can take a free trial, or pay for subscriptions which last 1 week (£5), 1 month (£7) and 6 months (£10).

DTS Online has many advantages over similar services, including:

**Trust** – DTS Online is published by Focus Multimedia and developed by Imagitech, the same team behind the number one best-selling Driving Test Success brand. We have helped **over 3.6 million people** pass their tests since 1997. How many other companies can say that?

**Quality** – Your pupils are guaranteed the best quality learning experience using DTS Online’s state-of-the-art revision tools, based closely on the award-winning Driving Test Success disc-based products.

**Value** – The quantity of content on DTS Online is incredible. Almost everything you will find on our PC DVD-ROM, and that’s more than 10 gigabytes of information, can be accessed instantly through DTS Online. From official DSA Theory Test revision questions, to Hazard Perception videos to Driving Test tutorials, you will not find a more complete learning experience anywhere else.

**Transparency** – As a driving school you can log in to DTS Online’s live reporting at any time and find out how much commission you have earned, as well as monitor your students’ progress.

# How to Sign Up and Start Earning Money

## STEP 1 - register

The screenshot shows the homepage of 'Driving Test Success Online'. At the top, there's a navigation bar with buttons for 'Learn Now', 'Login', 'Register', 'Instructors', and 'Tour'. A large 'L' logo is positioned next to the site's name. A banner below the navigation bar states 'All tests. All inclusive. All the tools you need to pass this summer!' with a 'Get Started >' button. Below this, two main promotional boxes are visible: a red one for a 'FREE TRIAL' with benefits like 'No fees', 'No commitment', and 'No credit card'; and a green one for 'START REVISING NOW!' with a plan starting from '£5'. The main content area features four test categories: 'Theory Test', 'Hazard Perception Test', 'Practical Test', and 'Highway Code', each with a 'Get Started' button. A news section at the bottom mentions the launch of an online version of their revision aid. The footer includes logos for ADI, NJC, DIA, MSA, securetrading, VISA, MasterCard, Maestro, SOLO, and PayPal, along with copyright information and a list of site links.

To become an affiliate, you must register your driving school with us.

To sign up, please visit <http://www.drivingtestsuccess.com/sign-up-for-training/> and click on the "Instructors" button at the top right of your screen.

NB: If you've already signed up for our Driving School Directory, please note that this is independent of our e-learning service and we won't have your details for the e-learning service. You'll need to sign up as described above.

## STEP 2 – fill in your personal details

The screenshot shows a web browser window with the address bar displaying "Driving Test Success Online". The page features a navigation menu with buttons for "Learn Now", "Login", "Register", "Instructors", and "Tour". The "Instructors" button is highlighted in green. The main heading is "DRIVING TEST SUCCESS Online" with a large red "L" logo. Below the heading is a registration form titled "Register as a Driving Test Success Online Affiliate". The form includes a "Personal Details" section with a "Title" dropdown menu (set to "Mr"), and two required text input fields for "Forename" and "Surname". An "Account Details" section is partially visible at the bottom. To the right of the form is an "Information" box containing text about the benefits of partnering with the site.

### Information

There are some great benefits for both you and your pupils to partnering with us and embedding Driving Test Success Online Content on your web site.

Not only does it give you access to the UK's leading training materials, but it also gives you the opportunity to generate revenue from this critical element of driver training - in a way that was never possible... until now.

On the next screen, fill in your personal details section by section.

### STEP 3 – fill in your business details

Now you need to fill in your business details on the lower part of the page. You should find that most of the fields are straightforward and don't need much explanation, however the "Embedded Page URL" field requires a little more description:

**Business Details**

\* Business Name:

\* Business Address:

Road:

Town:

\* County:

\* Postcode:

\* Embedded Page URL:

Please enter the exact URL where Driving Test Success Online's log-in page will reside on your website (please DO NOT enter any other URL, or your pupils will not be able to activate their accounts)

\* Contact Telephone Number:

Account Name:

Account Number:

As an affiliate, you have two options:

1. You can embed our e-learning service on your own website, by simply pasting a few lines of HTML code into an existing web page on your site, or by using a pre-written page. In both cases - we provide the necessary code for you.

Driving Test Success Online will be shown within a box, called an "iframe", on whichever web page you choose. Any web page will do, regardless of which tool you use to edit your site or how it is served to users. All that matters is that you are able to edit the web pages.

NB: VERY IMPORTANT – The "Embedded Page URL" box must contain the EXACT location of the web page where Driving Test Success Online will be displayed on your own website. So for example, our website's home page URL is [www.drivingtestsuccess.com](http://www.drivingtestsuccess.com), but the page on which the e-learning service is embedded is [www.drivingtestsuccess.com/sign-up-for-training](http://www.drivingtestsuccess.com/sign-up-for-training) - so this is the address we would enter as our "Embedded Page URL".

If you don't get the URL right, your customers won't be able to activate their accounts.

...OR...

2. If you don't want to host Driving Test Success Online on your own website, we can host it for you.

If editing HTML is your idea of hell, then you might prefer to link to our e-learning service via banner graphics, and this is fine too. In this case, we'll set up a unique page for your driving school on the Driving Test Success website. Because it involves a little bit of manual work on our side, please allow up to 28 days for this to be completed (normal service times are considerably shorter). At the time of writing, this service is free.

\* Embedded Page URL:

If you would prefer a web page within our site, rather than your own website, then simply enter <http://www.drivingtestsuccess.com> as the **Embedded Page URL** and we'll do the rest. This won't be your final unique URL – we will create a custom URL for you based on the name of your driving school. By way of an example, if your driving school is called ABC Driving School then we may choose to customise your final URL as: <http://www.drivingtestsuccess.com/abcdrivingschool>.

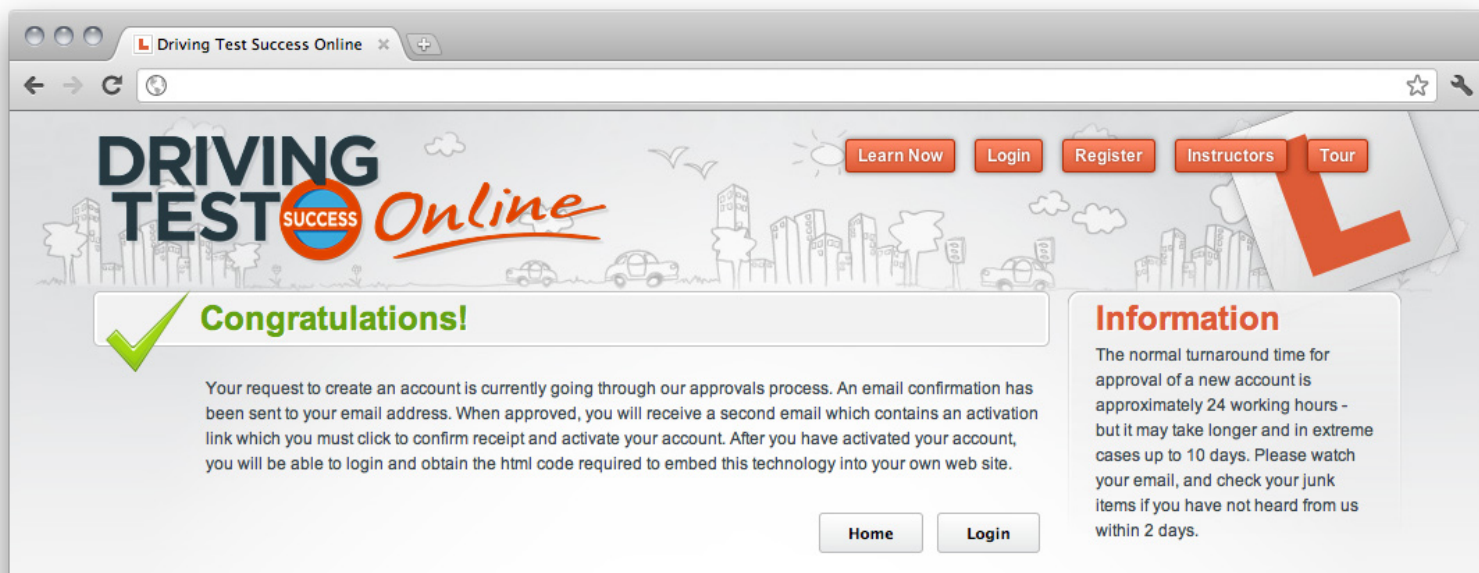

Please note that the name of the URL will be at Focus' discretion and is not normally negotiable (but we like cupcakes a lot).

Once you're approved, you'll be able to use banner graphics, printed leaflets or whatever you like to direct pupils to your unique page on our website. We will provide you with downloads from time to time to assist you with your marketing efforts. If you would like to suggest something that we don't already provide, please email us: [dts@focusmm.co.uk](mailto:dts@focusmm.co.uk)

### Problems? Need help?

If you're not sure about any part of the process, or are having any problems, please contact [support@focusmm.co.uk](mailto:support@focusmm.co.uk).

## STEP 4 – approval and activation

The screenshot shows a web browser window with the address bar displaying "Driving Test Success Online". The website header features the logo "DRIVING TEST SUCCESS Online" and navigation buttons for "Learn Now", "Login", "Register", "Instructors", and "Tour". A large red "L" license plate graphic is visible on the right. The main content area has a green checkmark icon and the heading "Congratulations!". Below this, a text box explains the approval process: "Your request to create an account is currently going through our approvals process. An email confirmation has been sent to your email address. When approved, you will receive a second email which contains an activation link which you must click to confirm receipt and activate your account. After you have activated your account, you will be able to login and obtain the html code required to embed this technology into your own web site." At the bottom of this box are "Home" and "Login" buttons. To the right, an "Information" box states: "The normal turnaround time for approval of a new account is approximately 24 working hours - but it may take longer and in extreme cases up to 10 days. Please watch your email, and check your junk items if you have not heard from us within 2 days."

Once you've completed your details and clicked on "Register", you'll see a screen like the one above. Look out for a confirmation email from us. Please read it carefully. You will also find your "embed code" attached to your confirmation email as a text file. This code can be copied and pasted into your web page, ready for going live – **but it won't actually work until you are approved by us.**

**IMPORTANT** – Every affiliate application has to be manually approved by a real person. We do this to ensure the integrity of the Driving Test Success brand. Therefore please allow up to 10 days for processing. Of course we will endeavour to process your application much quicker than this, but please bear in mind that we work office hours Monday to Friday).

All being well, you will then receive a second email which will contain an activation link (see above for an example). **It's important that you click on the activation link to get your Driving Test Success Online account up and running.**

**We are delighted to inform you that your application to become a reseller of Driving Test Success Online has been approved. All you need to do now is validate your email address by clicking on the link below.**

### How will the changes to the DSA Theory Test on 1st January 2012 affect Driving Test Success Online?

From this date the DSA will begin introducing new questions to the Theory Test which will not be made public, nor available to license. Driving Test Success Online will continue to use the DSA's official revision questions (ie the question bank as it stands today), and therefore will still be the best way for pupils to revise for their Theory Test.

## Why is the iframe displaying incorrectly in certain browsers?

You may find that the iframe fits your page correctly in some browsers, such as Chrome but displays incorrectly in other browsers, such as Internet Explorer and Firefox.

The cause of this is that the iframe is nested within an element that does not have a defined 100% height attribute. We tell the iFrame to occupy 100% of the available height. Unfortunately, where the height of the container is not fixed or cannot be calculated – different browsers treat it in different ways.

1) Rather than setting a 100% height for the iFrame, it could be set to a fixed height. This isn't ideal as the fixed height chosen may not be correct for all pages and cause issues with content being cropped off the bottom of some pages.

2) If you have a good working knowledge of CSS, you can try adding your site-specific selectors inline to overcome the differences between the browsers, by fixing the height and width of the container classes to 100% height and 100% width.

...Or

3) You can simply use the “whole page” HTML template that the DTS Online system produces and add whatever other content you require on the page.

4) Or if you would prefer we can create a unique page on the Driving Test Success website that you can direct your visitors to. We would use your unique affiliate code so that you would still earn commission on every successful sale, but it just means that the Driving Test Success Online training application will sit on our website rather than yours.
